HEALTHMETRO – WEBSITE, SEO & DIGITAL GROWTH RESPONSIBILITY BRIEF
(Franchise Launch System – Technical Execution & Growth Ownership)

NOTE TO EXECUTION PARTNER
Hi Rohit,

This document defines the complete responsibility for Healthmetro's **website development, SEO setup, and social media growth management**. This is a **technical execution role**, not a design-only role.

The objective is to build a complete digital system that drives:

- Patient bookings
- Doctor referrals
- Online visibility
- Traffic growth
- Launch impact (May 15)
- Long-term digital scalability

---

1. PROJECT SCOPE
You will be responsible for:
1. Website Development

- Static website creation
- UX structure and navigation
- Mobile-first responsive design
- QR-based booking integration
- Performance optimization

2. SEO Management

- On-page SEO setup
- Keyword targeting (healthcare + local discovery)
- Google indexing setup
- Local SEO optimization
- Search visibility improvement

3. Social Media Management

- Creation of all social media platforms
- Content planning and execution
- Posting consistency
- Engagement and reach growth
- Traffic generation to website and QR system
- Launch campaign execution

2. PRIMARY OBJECTIVES
The system must achieve:

- Strong digital presence for Healthmetro
- High patient booking conversions via QR system
- Increased doctor referrals digitally
- Strong SEO-based visibility
- Consistent social media growth
- High traffic during and after launch
- Long-term scalable digital system

---

3. WEBSITE REQUIREMENTS (STATIC WEBSITE)
The website structure will be finalized by the developer based on best technical and UX practices.
The expectation is to create a **simple, intuitive, and conversion-focused website experience**.

UX & NAVIGATION EXPECTATION

- Simple and clean navigation structure
- Mobile-first responsive design
- Fast loading and minimal friction
- Easy understanding for first-time users
- Clear user flow from awareness → booking → action
- Strong visibility of CTAs (Book / Refer / Contact)
- Use of clean icons for better usability
- Conversion-focused structure (not just informational)

REQUIRED PAGES
The website should include the following core pages:

- Home
- About Healthmetro
- Services
- Doctor Referral Section
- Book Appointment Section
- Contact Page

FINAL NOTE ON WEBSITE

- Developer has full technical freedom for structure and implementation
- Focus must be on usability, clarity, and conversion
- Design should support trust and ease of booking

---

4. QR CODE SYSTEM (CRITICAL FUNCTIONAL COMPONENT)
Healthmetro operates with two separate QR systems:

4.1 BOOKING QR (PRIMARY SYSTEM)
This is the **main operational QR system**
Purpose:

- Appointment booking
- User tracking
- Service selection
- Payment tracking
- Revenue and payout management

Usage:

- Website homepage
- Service pages
- Social media creatives
- Posters and clinic displays
- Call-to-action sections

Importance:
This is the **core conversion and revenue system**

4.2 INFORMATION QR (SECONDARY SYSTEM)
This QR is for **education and awareness purposes**
Purpose:

- Explain medical tests and services
- Provide doctor-side explanation
- Provide patient understanding

Usage:

- Clinic posters
- Educational content
- Referral materials
- Service explanation sections

RULE

- Booking QR must always have highest visibility
- Information QR supports understanding only
- Both must be consistent with Healthmetro branding

---

5. SEO RESPONSIBILITIES

- Full on-page SEO setup
- Meta titles and descriptions
- Healthcare keyword targeting
- Local SEO optimization
- Google indexing setup
- Image ALT optimization
- Search visibility improvement

---

6. SOCIAL MEDIA MANAGEMENT (GROWTH RESPONSIBILITY)
IMPORTANT CLARIFICATION
This is not just page setup.
You are responsible for:

- Creating and managing social media pages
- Posting content consistently
- Increasing traffic and visibility
- Driving engagement and reach
- Supporting patient conversions

PLATFORMS

- Instagram
- Facebook
- LinkedIn
- WhatsApp (optional business use)

RESPONSIBILITIES
1. Setup

- Create all platforms
- Brand alignment across pages
- QR booking link integration
- Profile optimization

---

2. Content Execution

- Regular posting without gaps
- Pre-planned content execution

- Launch + post-launch content management

---

3. TRAFFIC & GROWTH (CRITICAL)
You are responsible for:
- Increasing visibility
- Driving traffic to website and QR system
- Improving engagement (likes, shares, reach)
- Supporting patient booking conversions
- Building awareness before and after launch

CONTENT CALENDAR (MANDATORY)
A structured posting calendar must be created in advance.
Must Include:
Pre-Launch Phase
- Awareness posts
- Doctor introduction posts
- QR booking promotion
- Countdown posts

Launch Phase (May 15)
- Live event coverage
- Doctor talk highlights
- Engagement push

Post-Launch Phase
- Event recap posts
- Testimonials and highlights
- Continuous engagement content

IMPORTANT REQUIREMENTS
- Calendar must be shared before execution
- Content must be pre-planned
- No gaps in posting allowed
- Consistent engagement must be maintained
- Focus is on **traffic + visibility + conversions**, not just posting

---

7. LAUNCH VISIBILITY RESPONSIBILITY (MAY 15)
- Pre-launch digital buildup (7–10 days)
- Live event coverage support
- Post-event engagement campaign
- Continuous visibility push after launch

---

8. EXPECTED OUTCOME
The system must deliver:
- Strong digital presence for Healthmetro
- High website traffic
- Increased QR-based bookings
- Improved doctor referral network
- Consistent social media growth
- Successful launch visibility impact
- Long-term scalable digital ecosystem
